

Dr. Zian Qin, Associate Professor, TU Delft

Associate Professor, IEEE Senior Member
Founding Chair of IEEE Benelux Section Transportation Electrification Council Chapter
Dutch National Member of Cigre WG B4.101 (grid forming energy storage)
DCE&S group, ESE department, EEMCS faculty, TU Delft
Address: Building 36, LB03.640, Mekelweg 4, 2628 CD Delft
Phone: +31 15 27 86584
Email: z.qin-2@tudelft.nl, zqi@ieee.org
ORCID: 0000-0002-7408-7706

Personnel site: www.zianqin.com

EDUCATION

2015 Ph.D. Aalborg University (AAU), Denmark
2012 M.Eng (Hons), Beijing Institute of Technology, China
2009 B.Eng (Hons), Beihang University, China

POSITIONS

2024- Assoc. Prof. (Tenure), Delft University of Technology, Netherlands
2017-2024 Assist. Prof., Delft University of Technology, Netherlands
2015-2017 Postdoc, Aalborg University, Denmark
2014 Visiting Scientist, RWTH-Aachen University, Germany – 3 months

SCIENTIFIC FOCUS AREAS

- Power quality and stability of power electronics-based systems
- Power module design and grid integration of EV charging
- Battery management system

PROJECTS

REDCON – Reduced grid connections, 2024-2028, Dutch TKI Urban Energy, PI, 900k€
BATT-AI - Large-scale BATT for max profit and congestion management using AI, 2025-2030, Dutch Research Council, PI, 1M€
Grow – Scalable grid forming energy storage with intelligent control systems, 2024–2029, Horizon Europe MSCA, PI, 300k€
ECS4DRES - Grid Forming Energy Storage for Charging Hubs, 2024-2027, Horizon Europe Chips JU, PI, 900k€
FlexH2 - SST for large scale H₂ electrolyzers, 2022-2026, Netherlands Enterprise Agency (RVO-MOOI), PI, 760k€
Power Quality of Heavy-Duty Truck Charging hubs, 2023-2027, Shell sponsored, Co-PI, 450k€
NEON - Bipolar DC grids for ships, 2020-2023, Dutch Research Council (NWO), Co-PI, 450k€
Optimal operation of maritime batteries, 2020-2023, Equinor sponsored, Co-PI, 100 k€
PROGRESSUS - Power quality in EV charging, 2020-2023, Horizon 2020/ECSEL-JU, Co-PI, 630 k€
Power2Power - Optimal power module design for EV charging, Horizon 2020/ECSEL, 2019-2022, Co-PI, 596 k€
Low-Harm - Large Offshore Wind Harmonics Mitigation, Dutch TKI Wind op zee, 2017-2019, Co-PI, 350 k€

PUBLICATION STATISTICS

- 60+ Top-level Journal articles; 100+ conference papers; 4 Book Chapters
- 3 Dutch patents granted, 2 Chinese patents granted
- Google Scholar: H-index: 34, citations: 5000+

AWARDS

- World's Top 2% Scientists, since 2022
- IEEE Open Journal of Power Electronics, Prize Paper Award, 2020~2023
- Two papers are selected for the Featured Articles from IES Journals. (40 papers from more than 10000 are selected)
- IEEE International Challenge in Design Methods for Power Electronics Excellent Innovation Award, 2023
- IEEE-TIE's Distinguished Reviewers for the year 2020

PRESENTATIONS & INVITED TALKS

- Invited Speech at Nottingham PELS Student Branch Chapter, 2026
- Panelist at Sungrow Charging Summit, Amsterdam, 2025
- Invited Speech at Hitachi Energy Webinar, 2025
- Invited Speech at China Power Supply Society Webinar Series, 2025
- Invited Speech at Sungrow Central Research Institute, Hefei, 2025
- Invited Speech at IEEE 9th Southern Power Electronics Conference, Brisbane, 2024 (SPEC 2024)
- Invited Speech at IEEE 20th International Power Electronics and Motion Control Conference, Brasov, 2022 (PEMC 2022)
- Invited Speech at 2023 IEEE PLES/IAS/PES BENELUX Joint Chapter Webinar
- Invited Speech at 2022 European Distributed Energy Resources Laboratories (DERlab) Knowledge Day
- Invited Speech at 2022 Huawei Digital Power Webinar
- Invited Speech at 2021 ElaadNL EV Charging Best Practices and Power Quality Webinar
- Invited Speech at Aalborg University (2024), UTBM (2025), Zhejiang U (2025)
- Tutorial at EPE 2025&2023, IEEE ECCE Asia 2023, IEEE PEDG 2022

LEADERSHIP AND ACADEMIC SERVICES

- Associate editor of IEEE Trans. Power Electronics
- Associate editor of IEEE Trans. Industrial Electronics
- Associate editor of IEEE Trans. Transportation Electrification
- Associate editor of IEEE Journal Emerging and Selected Topics in Power Electronics
- Founding Chair of IEEE Benelux Section Transportation Electrification Council Chapter
- Dutch National Representative in Cigre WG B4.101 (grid forming energy storage)
- Technical Program Chair, IEEE PEDG 2024&2023, IEEE COMPEL 2020, IEEE ISIE 2020

TEACHING AND SUPERVISION

- Supervise(d) 15 Ph.D. students (10 graduated, 1 received Cum Laude), 3 PostDoc
- Supervise(d) 50+ master thesis projects. 7 got Cum Laude
- Main Teaching Activities

Master course: "Advanced power electronics", since 2018

Bachelor course: "Introduction to Electrical Power Engineering", since 2017

MOOC "[Battery Management Systems and Pack Design](#)", since 2025, 2000+ enrollments
